

Single Scissor Lift Table

Product Description

- Single scissor lift table is widely used in the application involved with heavy loading capacity ranging from 100Kg to 60 tons.

Parameters

Model	Load Capacity T	Platform Size L×W (MM)	Storage Height (MM)	Stroke (MM)	Max Height (MM)	Power (KW)
SJG0.3-0.5	0.3	900*350	200	500	700	0.75
SJG0.5-0.5	0.5	900*380	200	500	700	1.1
SJG1-0.97	1	1500*1000	230	970	1200	1.5
SJG1-1.5	1	2500*2000	340	1500	1840	2.2
SJG1.5-1.2	1.5	2000*1500	350	1200	1550	2.2
SJG2-1	2	1600*1000	300	1000	1300	2.2
SJG2-1.6	2	2500*2000	360	1600	1960	3
SJG3-1	3	1600*1200	360	1000	1360	3
SJG4-1.2	4	2400*1200	400	1200	1600	4
SJG5-1.5	5	2600*2000	480	1500	1980	4
SJG6-1.2	6	2000*2000	480	1200	1680	4
SJG8-1	8	1600*1600	500	1000	1500	4
SJG10-1.6	10	3500*2200	680	1600	2280	5.5
SJG15-1.6	15	3500*2200	780	1600	2380	7.5
SJG20-1.8	20	6000*2500	720	1800	2520	7.5
SJG30-1.6	30	7000*3000	880	1600	2480	11

External Electric Control System

Optional Configuration

- For platform:
 - With movable plate (easy connect to truck, containers etc)
 - Guardrail
 - Rotating of platform
 - Turning over of platform
 - With rollers
 - Safety bar

- For Hydraulic Units
 - Hydraulic power unit for high /low temperature environment
 - Manual Hydraulic pump
 - Double acting cylinder

- Electric Control system :
 - Explosion proof

- Remote control

Others :

- Dust stop
- Stainless steel guardrail

Internal Electric Control System

SINCE 1955
